A high-contrast, black and white image showing a dense, textured surface, possibly a wall or a large group of people, with a dark, irregular shape in the center. The image is heavily degraded with noise and artifacts, making it difficult to discern specific details. The central dark shape appears to be a large, irregular object, possibly a person or a structure, set against a lighter, textured background. The overall appearance is that of a low-quality, high-contrast scan or a heavily processed photograph.

A dark, high-contrast image showing a dense, textured surface, possibly a book cover or a heavily shadowed page. The image is mostly black with some faint, lighter areas suggesting texture or light reflecting off the surface.
